## Summary

Frontend Developer with 1 year of experience building responsive and interactive web applications using HTML, CSS, JavaScript, React, and Tailwind CSS. Completed 6 projects, all optimized for mobile and desktop, ensuring a seamless user experience across devices. Proficient in using React Router for building dynamic single-page applications (SPAs). Passionate about writing clean, efficient code and continuously improving my skills with the latest frontend technologies.

## Experience

### Front-End Developer

July 2024 – September 2024

Ezitech Institute

- Developed and implemented 6 responsive web applications using React, focusing on user-friendly design and performance.
- Created reusable components and managed state using React Hooks to streamline development.
- Utilized Tailwind CSS for styling and ensured cross-device compatibility for an optimal user experience.

## Project

### Ahana Website

- Developed a sleek e-commerce website using React and Tailwind CSS for a seamless shopping experience.
- Integrated product listing, cart, and checkout features, ensuring smooth navigation and user interaction.
- Implemented responsive design and fast load times, optimizing for performance across various devices.

### Avo Website

- Built a visually appealing web application using React and Tailwind CSS for a smooth and modern user experience.
- Optimized for mobile and desktop platforms, ensuring fast load times and responsive design across all devices.

### Constra Construction

- Developed a construction services website using React and Tailwind CSS, showcasing a professional and modern design.
- Integrated sections for services, projects, and client testimonials, providing comprehensive business information.
